

SPIKE PANELS & GATES

Spike is constructed from high strength, rigid, steel tubing that not only looks imposing to potential intruders but is also exceptionally strong due to its fully welded construction.

Spike Security Fence is constructed from high tensile, rigid, 1.5mm thick steel tubing.

Not only does Spike Security Fencing look imposing, it is also exceptionally strong and offers an incredibly long life due to its fully welded construction and 100% hot dip galvanising.

Security on the Spike fence is further enhanced by the tamper-proof stainless steel securing bolts and pressed spike tops.

The Spike panel is only available as a 3 rail system and is available in 1.8m and 2.1m heights.

Ideal applications for Spike Panels include:

- Industrial business parks
- Commercial properties
- Sports fields and enclosures
- Shopping centres and malls
- Pedestrian access barriers
- Recreation facilities
- Carparks
