

TITAN™ Tubular Steel Fencing

TITAN™ tubular steel fencing is a highly robust, yet very stylish security fencing solution, which is extremely versatile making it ideal for a wide range of medium security fencing applications.

5 YEAR WARRANTY*

New Zealand made and galvanised

Our manufacturer designs, manufactures and galvanises TITAN™ tubular steel fencing in New Zealand to guarantee consistently high levels of product quality – typically lacking in other imported alternatives. The robust hot-dipped galvanised steel finish of TITAN™ requires very little ongoing maintenance.

Extremely versatile

TITAN™ tubular steel fence panels offer outstanding versatility. TITAN™ panels are available in a standard dimension of 1900mm (H) x 2370mm (W) and come with either 2 or 3 rail options. Fully welded raked (sloped) panels and a full range of matching gates are also available. Mr Fencer is likely to soon be adding other standard panel sizes. In the interim, we are able to customise orders to any size, to meet your specific requirements.

Simple, stylish and secure

TITAN™ fencing is simple to install and low maintenance making it an extremely easy fencing solution to work with. Its clean, stylish lines make it an ideal option for perimeter fencing, and its inherent anti-climb properties, tamper-proof construction and sliced-point spike top make it seriously secure for the ultimate in peace-of-mind protection for your premises.

Ideal applications

- Security yards
- Schools and sports grounds
- Medical centres
- Medium security installations
- Stock yards
- Storage facilities
- Goods delivery areas
- Warehouses
- Golf courses
- Pools and landscaping

NEPTUNE™ Pool & Landscape Fencing

Utilising TITAN™ fencing technology, NEPTUNE™ tubular steel fencing is now available to specifically meet pool and landscaping needs. Delivering the same inherent product benefits as TITAN, NEPTUNE™ pool and landscape fencing features a safety conscious flat top on each tube. NEPTUNE™ is ideal for environments that require solid, yet stylish fencing, retaining walls and balustrades, and a full range of safety gates are available to match and complete your project.

5 YEAR WARRANTY*

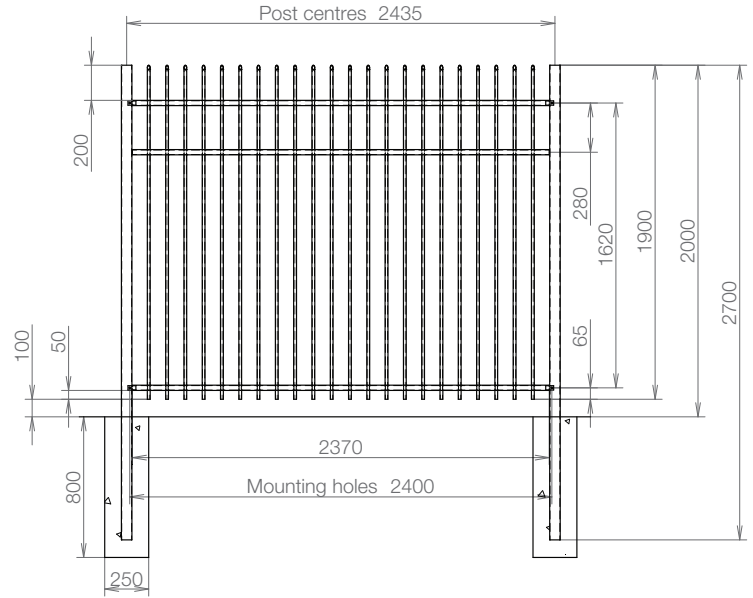

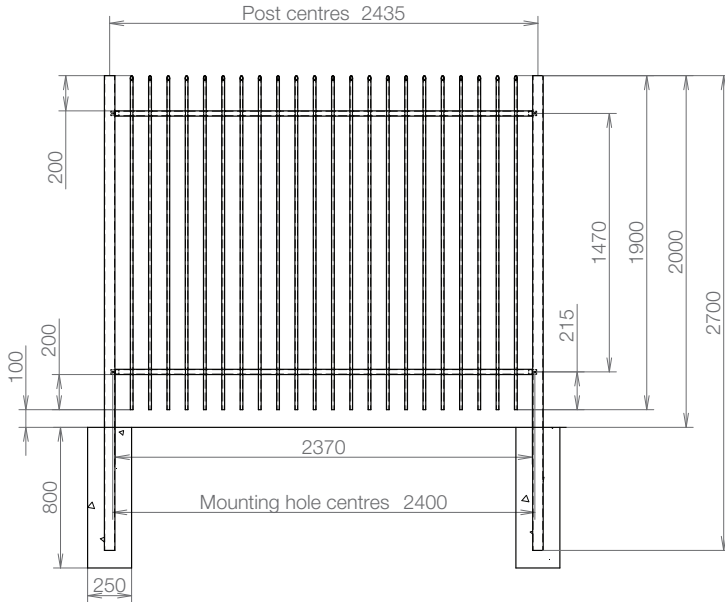

TITAN™ Tubular Steel Fencing - robust, stylish secure

5 YEAR WARRANTY*

Installation and safety

In the interest of safety, TITAN™ tubular steel fencing and NEPTUNE™ pool and landscape fencing should be installed by an experienced installer. Your specialist installer will be able to recommend the best and most cost-effective configuration for your security needs.
