

HERCULES® PLUS Rigid Fence Panels

HERCULES® PLUS is a highly rigid panel fencing solution built with durability and style in mind, making it a versatile product ideal for a wide range of applications. With its perfectly symmetrical 'H' profile, the round lines of HERCULES® PLUS give an elegant and discreet finish.

Highly durable

Senzimir Zinc galvanised (40 gr/m² minimum) with a metallic black powder coating finish, HERCULES® PLUS now features an enhanced 'Plus Crease' profile which offers more than twice the rigidity of other rigid mesh panel fencing solutions.

Exceptional value for money, HERCULES® PLUS will stand the test of time, long beyond its standard 2 Year Warranty.

Seriously stylish

Polyester powder coated (to 100 microns minimum), HERCULES® PLUS fence panels boast a new 'Oxidon' texture, for a stunning metallic black deluxe finish.

With clean symmetrical lines and discreet 90 degree corners on a single post, HERCULES® PLUS panels will help to enhance both the style and security of your property, without having to sacrifice visibility.

HERCULES® PLUS fence panels are seriously strong on style.

Extremely versatile

A combination of strength and attractive looks makes HERCULES® PLUS fence panels one of the most versatile products available today.

If you need a stylish yet secure perimeter fence for your corporate head office, or a discreet boundary fence with great visibility properties for your home, HERCULES® PLUS is a cost-effective option that will enhance the value of your property.

Ideal applications

- Industrial business parks
- Commercial properties
- Residential housing
- Schools
- Early childhood centres
- Sports fields and enclosures
- Shopping centres and malls
- Pedestrian access barriers
- Recreation facilities
- Carparks

EASYCLIP® – Easy installation and maintenance

HERCULES® PLUS fence panels combine beautifully with the innovative EASYCLIP® post system, to offer one of the easiest and most user-friendly installations possible.

As the name suggests, the fence panels clip easily into place using discreet and highly robust Polyester powder coated aluminium clips, to provide a clean and stylish finish every time. In the unlikely event of an accident, replacing or maintaining your HERCULES® PLUS fence panels is also extremely easy, with the panels simply un-clipping without the chance of damage to the EASYCLIP® fence post.

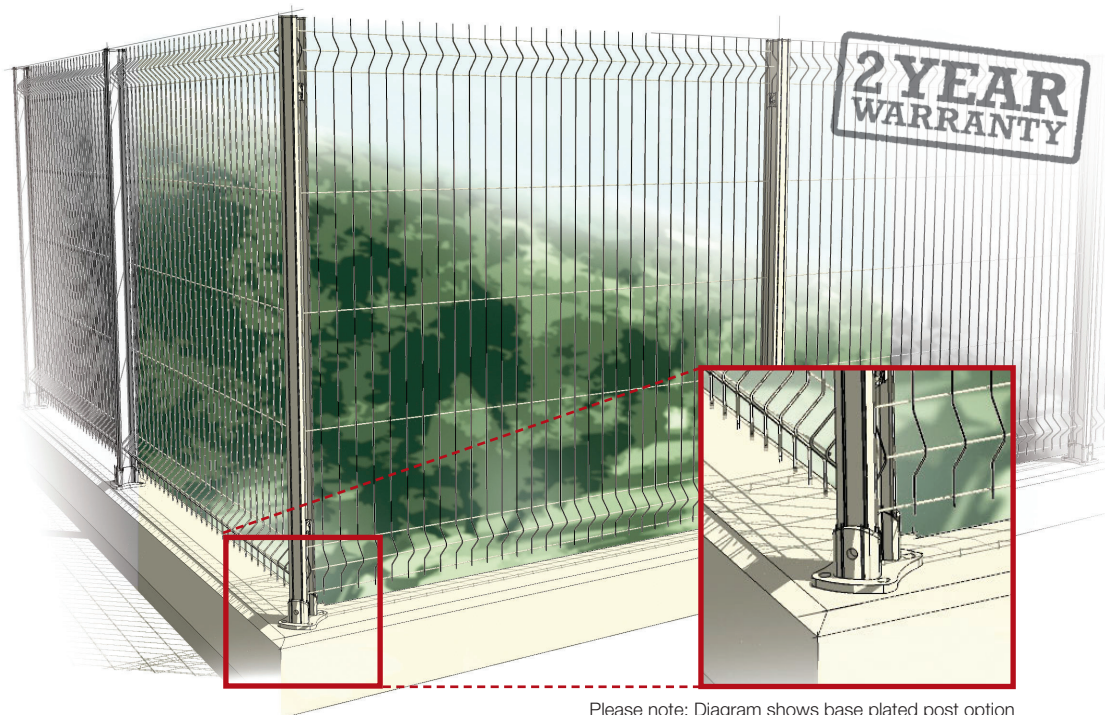

HERCULES PLUS® and EASYCLIP® - it's fencing made really easy with durability and simplicity in one stylish solution.

HERCULES® PLUS - a stylish finish for any terrain

Stylish and functionally robust, HERCULES® PLUS fence panels will complement any environment

- Perfectly symmetrical 'H' Profile
- Achieve a genuine 90 degree angle with a single post
- Absorbs all degrees of slope
- Replacing panels without damaging posts is easy
- The arm posts can be equipped with barbed wire for additional security
- A high quality finish, covered by a 2 Year Warranty period

Installation overview (in-ground option) Thanks to the EASYCLIP® post fixing system, installation is simple.

1. Prepare for installation

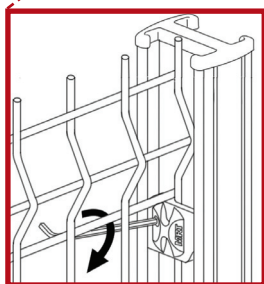

Dig holes of 30cm diameter and 50cm deep, with a 2.5m distance between centres of each hole.

2. Installation of the first post

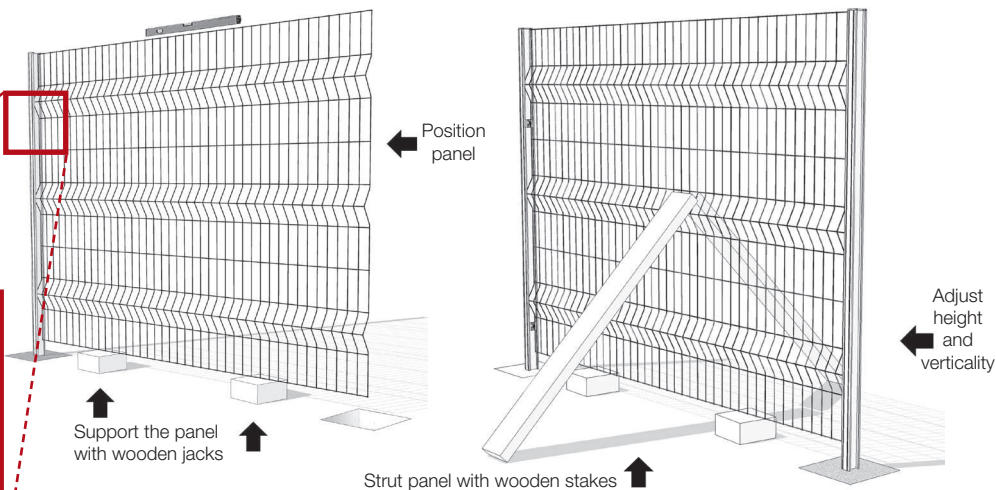

Bury first post in dry instant cement. Adjust height and verticality, then fill hole with instant set concrete as per concrete instructions.

3. Installation of first panel

Support the panel with wooden jacks. Position the panel in the groove of the post. Fix the post with the clips.

Fix post with the clips

4. Installation of second post Bury the second post. Adjust height & verticality. Strut the panel with wooden stakes. Repeat operations until fence is complete.

Specifications With its high rigidity, HERCULES® PLUS is ideal for most industrial, commercial & residential applications.
